## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-6 and 8-11 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:

Winokur (US 6,625,704) teaches intercepting write commands that are receiving during a copying process and copying them to the secondary volume out-of order (see column 2, lines 22-38). Squibb (US 6,301,677) teaches halting incoming events during a mirroring process. The prior art of record does not teach or suggest **revising** the compare delta map by **removing** any changes made to the primary volume during a **scan interval**. The prior art also does not teach or suggest the use of a **scan delta map**, **host change delta map**, or **fix-up delta map**.
